State Insane and Idiotic Asylum.

DRS. HAWTHORNE & LORYEA,

PHYSICIANS & PROPRIETORS.

IN PURSUANCE OF A LAW PASSED BY THE present Legislative Assembly of the State of Oregon, the State Insane and Idiotic Asylum is located in East Portland, in this county. Drs. Hawthorne & Loryea, Physicians and Proprietors.

The Proprietors of the above Establishment will [illegible] to make additions to their present buildings in order to afford room and attention to all who are unfortunate enough to need the care and treatment of an Insane or Idiot Asylum.

It is especially requested on the part of County Judges, guardians and friends of this class of patients, to have them immediately conveyed to the Asylum, so that they may be properly cared for before the inclement weather sets in.

THE INDIGENT WILL BE SUPPORTED AT THE EXPENSE OF THE STATE, and no charge of debt made against them. For further particulars apply to Drs. HAWTHORNE & LORYEA, Physicians of the Oregon State Insane & Idiotic Asylum. Portland, Multnomah County, Oct. 10, 1863.

WILCOX & GIBBS SEWING MACHINE.

We would call attention to the following facts in connection with this Machine, which renders it superior to any other in use.

It forms a flat elastic seam which will not rip in wear.

It is entirely noiseless.

A patented device prevents its being turned backward.

The needle cannot be set wrong.

Can be used successfully without other instructions than accompany the Machine.

It received the Gold Medal of the American Institute in 1863. For particulars enquire of

RE-ARREST OF THE ST. ALBANS RAIDERS.—The Montreal Herald of the 24th ult. has the following, which seems to show that the Canadian authorities are determined to show the rebel raiders no quarter:

The recapture of five of the raiders discharged from custody by the decision of Mr. Justice Coursol, and in the case of those captured at Riviere du Loup, denied was yesterday set beyond conjecture by the appearance of five of the prisoners before Mr. Justice Smith in chambers.

Captain McLaughlin, of the Government Police force of this city, on Tuesday the 10th inst., proceeded to Quebec, armed with the warrant of the Honorable Mr. Justice Smith, to arrest the liberated raiders or any of them that might be found. Without delay proceeded to Riviere du Loup with a force of the Quebec Water Police, three of whom he detailed at L'Islet and others at different points, and also secured the country for some distance inland.

He asked the inhabitants if there was any point on the road where he could command a view of everything that passed, and was told at the house of a man named Fournier, who was a combination of farmer and *aubergiste*, he would be able to see any person who passed towards St. Johns by that route. The Chief at once took three men, and hiring two sleighs proceeded to Fournier's house. They kept a vigilant lookout during the entire night, overhauling between eleven and twelve, the mail stage and everything that passed without success. About ten o'clock the following day two single sleighs with two men in one and three in the other came along. The men except the drivers were covered up with buffaloes, the weather being cold. The Chief suspected they were the parties he was in search of, and having overhauled the sleighs, discovered in the foremost Bennett H. Young with the driver, and Hutchinson and Teavis with the driver in the other.—They were, of course, very much surprised to see Chief Constable McLaughlin ahead of them three hundred miles from Montreal, and gave expression to that surprise. They however made no resistance, and told Chief McLaughlin they were unarmed, which proved to be the case.—About $1,000 in gold was found in the possession of the three of them, and on the person of Bennett H. Young a passport duly signed, certifying that "Jas. Irwin" was a British subject. Their horses were capital travelers, and had they succeeded in eluding the vigilance of Chief McLaughlin they would have given him a hard run for the boundary, which is from thirty-five to forty miles distant. Young declared that he would have run his horse off his legs before he would be captured, and in the last extremity would have taken to the woods.

Mr. McLaughlin arrived in this city yesterday with his captives, who were consigned to jail to await the action of his honor Judge Smith.

TELEGRAPH REPEATERS.—The American Telegraph Company have recently added a valuable improvement to their already extensive facilities for transacting business in their office in this city by the use of a set of Hicks Repeaters," which, very many of our readers know, work both ways without readjustment. This acquisition enables the company to transmit business direct from Washington, Baltimore and Philadelphia to New Haven, Providence and Boston, and *vice versa*, thus avoiding delay in the New York office, where business was formerly renumbered and re-written. The amount of business which this arrangement will take from the Philadelphia and Baltimore circuits, which have been overcrowded, will be of vast benefit both to the company and the public. These repeaters stand in the centre of the main office upon a two sided desk, which enables the operator in charge to adjust the relay magnets from either side by means of adjusting levers, which pass through the bases of the several instruments. These instruments were made by G. M. Phelps, who has spared neither labor nor expense to make them not only reliable but ornamental. The instruments are brass, ornamented and placed upon rosewood bases, and covered with glass shades, the outer ones being protected from injury by passers by by a brass rail.—*New York Telegrapher.*

MINERAL SPECIMENS FROM SALT LAKE.—The Stockton *Independent* of February 20th says:

Dr. Holden yesterday received a box from Salt Lake City containing one hundred and thirty-nine pounds of auriferous rock, embracing specimens of salt, silver, antimony, copper, iron and lead ores, etc., also sulphates of various metals, carbonate of copper and samples of petrified wood. These samples were sent by Dr. Reid, formerly of this city, but who is at present residing at Salt Lake City. Accompanying these were bars of silver and lead from Rush Valley Smelting Works. The various rocks represented the ores found at Cedar Mountain, Jordan and St. Louis mines (carbonate of copper), Vedette Copper Mine, Rush Valley Silver Mine, also silver ores from Sublett's Cut-off, Sonora, Russian River, Dacotah, Washitah Mountain, Empire, Lady Grant, Lone Star and many other mines. Some of the silver ores are marked as yielding $700 per ton, and among the contents of the box are beautiful samples of volcanic rock. These evidences of the mineral wealth of the places they represent are valuable acquisitions to a mineral cabinet.

VICEROY GWIN IN SONORA.—The New York *World* announces upon information derived "from the most reliable sources" that ex-Senator Gwin has been already named by Emperor Maximilian as Governor or Viceroy of the province of Sonora. The authority cited says that under the old Mexican Federal system this post ensured a stated salary of $7,000 per annum, with perquisites, facilities, *et cetera*, that amounted altogether to a princely revenue, and that under the new system these returns will foot up far beyond $100,000 per annum. With the Doctor's skill in managing the "*et ceteras*," it is reasonable to double that sum as the figure of his probable gains if the report of his appointment be true. This is better than manipulating Overland Mail legislation with contingent interests of $25,000 per annum.—*Washington Cor. S. F. Bulletin.*

A GREAT WILD CAT TRAPPED.—A farmer named Barclay Hoyt, living in Taylor township, Cambria county, Pennsylvania, had missed a great many chickens since the setting in of winter. He at first supposed they were carried off by minks, but when turkeys and geese disappeared as well as barn door fowl, he made up his mind that the depredator was a great deal larger animal. Recently he followed a trail of feathers through the bushes and came to a place where one of his turkeys was buried by the prowler creature that killed it. A steel trap set near this cache soon caught a very large and ferocious wild cat. He was the largest ever heard of, measuring no less than five feet in length. As the tail of these animals is very short this gives a size as great as that of a panther.

A LETTER FROM GENERAL McCLELLAN.—General McClellan was recently invited to visit the Keystone Club in Philadelphia to celebrate the anniversary of the Battle of New Orleans. In his letter excusing himself for non attendance he said:

I will venture to express my gratification at the gallant manner in which the Keystone Club bore its part in the recent contest. I am confident that its members will ever remain true to the cause of the Union and Constitutional liberty, and they will ever prove by word and deed their loyalty and devotion to our country, and that when the course of time brings on the next great political [illegible] they will render to whoever may then be honored with the proud position of the standard bearer of the party the same honorable and zealous support that has filled my heart with pride and gratitude that can never be effaced.

THE BURNT FEY OF [illegible].—The following passage occurs in one of the accounts of Sherman's Georgia campaign:

[illegible] Great [illegible] exclaimed a very intelligent Milledgeville lady, who [illegible] had been taken [illegible] little [illegible] when [illegible] my dear boys when now asleep in their graves [illegible] good bye and [illegible] kissed them off that they would come when [illegible] impoverished and childless I must ask the men whom they fought against for a meal of victuals to satisfy my hunger. But it serves me right. I was deceived into their rebellion, both and infamy, and here I stand their murderess.

The *Tribune* speaks of the installation of Chief Justice Chase as the placing of a solid block of New England granite in position.

Questions and Answers.

A Democratic editor has lately asked, in a triumphant tone, whether there would have been any war, could the people of the North have seen four years into the future, and have realized that three thousand millions of dollars debt would have been saddled upon the nation as a consequence of war. The question might with more propriety have been put: Is the Union worth preserving?—shall our nationality be paid for at any price?—or shall the flag be dishonored and the laws trampled on? The Democratic party seems always to count the cost, in a manner showing that with them liberty has its price, and that disunion is preferable to enduring hardship and danger to avert it; but we believe that the history of events does not warrant them in imputing such motives to the nation at large. In the darkest hours the people have not faltered; more money and more men have constantly been granted when required; and never more freely than when the issue of the contest seemed to be in doubt and disasters thickened—as they have at times—upon the Federal cause. A nation that increases in power, wealth and population, as ours has during four years of deathly struggle, need not fear a debt that falls short of that of England, when the rapid strides of our present growth indicate that we can soon grow to proportions that will diminish the burden of taxation.

Had the question been more general, and, embracing all sections, have asked if the American people could have seen the effects of secession, would there have been a civil war? We could have unhesitatedly answered, no! Though it is doubtful if the infatuated chivalry could have believed, had an angel from Heaven preached to them the direful consequences of an act that they had been planning for a generation and a half, which had been taught them from youth, and had come firmer rooted with increasing age. They had heard it in tones of prophesy from Stephens and Clemens, as the States of Georgia and Alabama were in the very consummation of secession; they listened to it with streaming eyes, but still they did it. An eye-witness, now in Portland, but who witnessed the act of secession at Milledgeville, says that the audience which hung upon the words of Stephens, as he predicted every horror that has since visited the South, as sure to follow on the footsteps of secession, were moved by an emotion he never saw equalled. Men and women wept; all—save Toombs—were in tears as he depicted the glory and safeguard of the old Government, and predicted the dangers and horrors of the new. While they did thus under such circumstances, it is possible, that, had they realized the truth of their own fears, they would not with parricidal hand still have aimed a hostile bolt at the flag that waved on Sumter.

A gentleman lately from San Francisco met there a Tennessean just from the scene of strife. He had been in the rebel armies, and sympathized throughout with the rebel cause, and when the culmination of events made life there no longer bearable, he left them to their fate, and sought a refuge as far as possible from war's tumults. He answered the question as to the state of things in the South by stating that it was "a perfect hell upon earth." Tennessee was destroyed; nothing was raised, her proudest sons were mere vagabonds, and her daughters beggars. The old aristocracy—the cotton lords, whose homes were magnificent, and whose hospitalities had been told and sung so often—was annihilated, and as if that were not enough of misery, the fair daughters of opulence, women who never knew a want, and had never been obliged to supply their own needs, rendered fatherless, brotherless, homeless, friendless by cruel war, were in some instances driven to the last resort of shipwrecked womanhood. Surely the picture was terrible enough without all this. Barbarism is not so bad, realized in many of its phases, and when we appreciate the fact that this is the present condition of parts of the once "Sunny South," and that all this misery has been caused by secession, and that had that never taken place, prosperity would still have blessed them as of old, we feel that "whom the gods wish to destroy they first make mad."

When shall these things cease? Shall the war go on until every portion of the South resembles Tennessee? There are still localities where hostile armies have never trod, though they are becoming fewer every month. A few leaders bred the evil in the commencement, and the same few may perpetuate to the bloody end as they have continued it to the present. Could a score of them have been removed four years ago, there would have been no secession; could those who are left of them be removed to-day, and the Southern masses act for themselves, there would soon be peace; but it seems as if the devoted people had decided to be exterminated, and it may continue until ruin and devastation spread over every State in rebellion, and every Southern home is a wreck. With many it is desperation; they have lost all but life—expect to lose that—and fly to the mountains resolved to sell it as dearly as they can. In many instances unoffending men suffer, and they in turn become exasperated by misfortune. Such is Southern life. At the North we endure the loss of many brave men, and have many a legacy of widows and orphans to care for; but at the South there is an acme of horrors, that we cannot parallel elsewhere upon earth. Their only hope is to find peace in submission, and then strive to win back their fireside comforts, as its enjoyment—there is no other left for them.

A Big Thing in Oil.—An engineer who has examined the subject, estimates that the coal oil wells of the Buena Vista Petroleum Company can be made to yield two hundred and fifty thousand gallons of oil per day. They are situated in Tulare county, about ninty-two miles from the sea coast, to which it is proposed to conduct the oil by means of pipes.—*Carson Post.*

This reminds us of a friend of ours who went to the Recorder of a mining county in the Blue Mountains and recorded thirteen claims, much to the delight of said Recorder, on a "copper ledge," said to be discovered on Snake river by an explorer just from there. Our friend figured that the copper must be worth three hundred and seventy-five dollars per ton of the rock; that a saw mill could be built there; flat boats made, loaded with ore, and sent to Celilo, when the ore could be sent to California on its way to Europe for reduction, while the lumber in the flat boats could be sold to pay all expenses of the work. An inquiring mind will naturally ask, did the thing work? Well, the only reason it failed that we can assign, is, that upon examination the ledge *didn't prove to be a copper mine.*

Exempt from Taxation.—There is over $8,000,000 worth of property in San Francisco exempt from taxation,—the property of widows, churches, and charitable institutions. The Catholic church owns property valued at half a million.

The Avalanche near the Henness Pass.—The Downieville *Messenger*, of Feb. 9th, has the following account of this affair:

On the afternoon of Sunday last a party of fourteen men, with nine horses, went out to break the trail from Sierra Valley to the Henness Pass toll through Webber Ravine. At about four o'clock, when pretty well toward the summit, an avalanche of snow, ranging about ten rods in width, came down suddenly upon the train, covering eleven of the men and five animals. Nine of the party were rescued, but were pretty well salted with snow, and white as badgers, to say nothing of the little fright which we presume they felt at being buried alive. Two others, however, remained in the drift, whose moans could be distinctly though faintly heard; but, curiously enough, their particular location could not be determined thereby, the sound at different times and to different ones seeming in opposite directions, and the labor of rescuing them being thus diffused over a large area of hard and corrugated snow. Harvey Davis was found after two hours' time in an exhausted condition, but soon recovered. The other man, John Bryant, who was married on New Year's, was not recovered until two o'clock on Monday morning. He was found dead but unscarred, against a small tree, where he seems to have lodged, at a depth of only three feet. So hard pressed was the snow, says our informant, that buried at the depth of only one foot, no man would be able to move his limbs. One of the horses was found dead at the depth of two feet. The body of Bryant was still warm about the chest when found.

Immediately after the casualty a man was dispatched to the valley for assistance, and a large body of men turned out with shovels, refreshments, etc., several of whom, owing to the severe cold, to which they were unaccustomed, returned with frozen feet and hands.

The last men found were only about fifty or sixty feet from where the avalanche found them; others being carried much farther, and some of the horses one hundred and fifty feet below the trail. Dr. Webber and some others of the party were so beaten out with continued efforts to rescue their comrades as to require assistance to leave the scene of disaster. One man, whose heels were sticking out of the snow after the avalanche had passed, and who finally struggled out, shook the snow from a prodigious pair of whiskers as he informed the rest that he was buried at least three feet, and could only stir one of his legs at first, the only lever with which to work himself loose.

Before the avalanche came down, the sound of its starting was heard, and one of the party inquired, "What's that?" It was known to be a slide of snow, but was not thought to be so near; and the first intimation of danger was received only too late to escape. It was seen bursting through the trees above them at a distance, knocking the snow from their tops and coming down like a cloud. Only time to catch the breath, or advance a step toward some friendly tree, was allowed before it was upon them, and they were swept away, pell-mell, in the midst of it. It is rather remarkable than otherwise that no other fatal casualty occurred.

The Battle-Field of Franklin.—The Nashville correspondent of the Cincinnati *Commercial* writes:

I lately passed over and examined the field where was fought, November 30th, one of the fiercest and bloodiest battles, for the numbers engaged, of the whole war. The carnage among the rebels must have been fearful. All along in front of the breastworks on which they charged, for several rods deep, the graves are clustered as thick as in the most populous Potter's field of the Old World. As the rebels occupied the field after the fight, they had abundant leisure to bury their dead decently, hence there are none of those disgusting and revolting exhibitions that sometimes shock the beholder, but he cannot repress a feeling of unfeigned sadness at the thought that in the short space of four hours all these multitudes were slaughtered in a vain struggle to accomplish the command of a madman.

The breastworks cross the Franklin pike at a right angle, and it was right down this road and on either side of it that the rebels charged in a solid phalanx five lines deep. Behind the works lay the Twenty-third corps, the Third Division to the left, the Second to the right. In front of them the destruction was far more terrible than elsewhere. They charged a sort of salient in the works, which presented front and met the brunt of the attack like a great rock at the edge of the sea. The country is level and perfectly open, and the balls took full effect. Our men were crowded so densely behind the works that those in the rear did nothing but fire the pieces which were loaded by their comrades in the front. It needs only that one should look at the [illegible] of brush which lay in front of them to learn what a deadly torrent of lead filled the air. To use the homely comparison of one who helped in that day's work, "it looks just as though it had been run through a threshing machine," and so it does. A grove of small locusts just in the rear of the works wears such an appearance as it might if a visitation of hail had been followed by one of locusts, and after that each particular and remaining shred of bark and limb picked off.

The rebels buried their dead by regiments, in rows parallel to the road. They made the graves about eighteen inches deep, and separated by a thin wall of earth. Some regiments number as many as fifty killed outright. The whole number

ONE OF THE

Committee on Sewing Machines at the Oregon State Fair.

Whose statement was not taken by the Florence, as it would not suit their purpose.

The Committee, after a long consultation, [illegible] the President, Judge Thornton, [illegible] a Report awarding the Grover & Baker Machine the First Premium, and the Second Premium to the Florence Machine. The Report advertised by the Florence Machine Company as being *bogus* was the *genuine* Report, as made out, read, and then signed by the four ladies of the Committee then present. [illegible]

Statement of MRS. MARY ANN KNOX,

ANOTHER OF THE

Committee on Sewing Machines at the Oregon State Fair.

Whose Statement was not taken by the Florence, because it would not agree with their misrepresentations.

Said Committee signed the Report awarding the First Premium to the Grover & Baker Machine, and the Report alleged by the Agent of the Florence to be BOGUS, was the TRUE REPORT which was written out by the President, and read by the Committee before signing. [illegible]

Statement of Mrs. EMILY C. GRIFFIN,

ANOTHER OF THE

Committee on Sewing Machines at the Oregon State Fair,

Who was inveigled into signing the Florence Document by false representations.

On or about the 15th day of December, Rev. [illegible] Parrish, (acting for the Florence Machine,) called with a written statement, purporting to have been made by Mrs. Mary A. Howe, the printed statement of which is as having been published in the San Francisco *Alta*, and signed by Mrs. Howe, [illegible] The Report which was made at the time, awarded the First Premium to the Grover & Baker Machine, and the Second Premium to the Florence, the Report which is advertised as being *bogus* is the *genuine Report*; [illegible]

(Signed,) EMILY C. GRIFFIN.
Sworn, signed and sealed, before James Elkins, County Clerk, Linn county.

Statement of MRS. MARY MILLER,

ANOTHER OF THE

Ladies of the Committee,

Who was inveigled, against her views, into signing the Florence Document.

In order to place myself right in the controversy regarding the award of the First Premium on Sewing Machines, I would state [illegible]

MARY MILLER.

The above is an effectual exhibit of a most dastardly attempt to ROB THE GROVER & BAKER SEWING MACHINE of fairly earned honors by the most contemptible series of falsehoods, misrepresentations and [illegible] by the Agent of the Florence Machine, WHO HAS NOT DARED ADVERTISE IN OREGON, where the Premium in question was obtained, but [illegible] at a distance, by establishing a controversy, to attract, by time and false impressions, attention to his wares. We drop the foul affair, leaving the public who may have an interest in the Sewing Machine question, to form their own estimates of the merit of a Sewing Machine which requires bolstering-up by such means, [illegible]

EUREKA

IMPROVED SELF-ADJUSTING

CLOTHES WRINGER

AWARDED THE FIRST PREMIUM

AT OREGON STATE FAIR IN 1864.

Abstract from Examining Committee's Report of the San Francisco "MECHANIC'S INSTITUTE" INDUSTRIAL EXHIBITION, OF 1864:

"CLOTHES WRINGERS.—A variety of these Excellent Household Helps were found competing for popular favor. Though none of them are entitled to a Premium, we consider the EUREKA, exhibited by M. E. Traver & Bro., worthy of honorable mention." (Note.—No Premiums were awarded to articles of Eastern Manufacture.)

The EUREKA CLOTHES WRINGERS are made Superior to all others in CONVENIENCE and DURABILITY by the use of

PATENT ELLIPTICAL STEEL SPRINGS,

Which produce a UNIFORM PRESSURE upon garments and Clothes of every size.

The IMPROVED EUREKA has the HINGE CLAMP, which will fit any Tub or Box perfectly. Its entire construction is simple and excellent. Every Family should have one. It will soon RE-PAY ITS COST IN SAVING Time Labor and Clothes. M. E. TRAVER & BRO., General Agents.

Oregon Interests.—The *S. F. Bulletin* gives a very extended review of the commercial intercourse of California, for the year 1864, and speaks very favorably of the Oregon leather which has been supplied during the year since May last. It is said that our stocks of heavy leather have nearly driven out other imports in that line, as well as many other finer grades of fancy dressed skins. We have fine tanneries in Oregon, but like almost every other branch of our industrial pursuits, they have been lacking the proper encouragement to develop them. The same may be said in regard to everything we produce or manufacture. Give Oregon a chance and she will prove herself well adapted to supply the wants of the world in nearly the entire catalogue of domestic manufactures. A great deal is now being said about the gold and silver mines of this State, and adjoining territories, and their resources are undeniably immense, but very long after they cease to exist, could it be possible for any human on earth at present to witness the change, the region of Oregon would be found anything but deserted or forsaken. We are progressing at a much more rapid rate in the scale of manufactures, in proportion to the wealth and population, than was the case with California, notwithstanding we have never had our advantages properly set before any community. The itinerant showman, the bummer, the disappointed who leave the State through their own shiftlessness poor, and every "outsider" afraid of having a rival for his rat hole, have been industrious in scandalizing the name of Oregon and her people, but their time has "played out," like "Chaos" they sink into oblivion, but Oregon appears to be riding upon the popular wave to prosperity and the enterprising portion of her crew will be gainers by the desertion of the dead heads.

Circuit Court.—The Grand Jury made their final report to the Circuit Court on Saturday evening and were discharged. A large number of offenses were investigated by them. They expended considerable time in examining witnesses concerning the mode of life of a peculiar class of persons residing within the city limits of Portland; but they were not able to obtain that degree of evidence necessary to insure successful prosecution against them. The report of the Jury upon this subject contains a clause quite satisfactory, which shows that another Grand Jury can consider the case with improved chances of abating what all feel to be a common nuisance. Against those persons in jail, or under bonds to appear for offenses, six indictments were found for larceny; four for assault with intent to murder; one for assault with intent to disfigure the person of another; two for gambling; one for suffering gaming; one for maiming an ox, and three others each endorsed not a true bill. The trial Jurors are to be present to-day, and the criminal business of Court will proceed.

Help for Our Soldiers.—Oregon has responded nobly to the call of the various Commissions for assistance to our sick and wounded soldiers, and it is a matter of great satisfaction to know that our help is of so much value in relieving the distress incident to the stern realities of war. The following dispatch, addressed to Mr. W. S. Ladd, of this city, by Geo. H. Stuart, Treasurer of the Christian Commission, shows how badly they need money, and our citizens should keep on in the good work:

Philadelphia, Feb. 18.—W. S. Ladd: Your generous remittance of six thousand one and six dollars is one of God's answers to our prayers over an empty treasury, and Oregon's relief for the thousands of our naked, starved prisoners now landing at Annapolis. Geo. H. Stuart.

Stock and Exchange Board.—The following comprises the members and the officers elected of the Portland Stock and Exchange Board. They are now permanently organized and will meet to-day for the purpose of disposing of the seats in their room: Harrison Olmstead, President; Jno. McCraken, Vice President; Benj. L. Norden, Secretary; Henry Failing, Treasurer; Wm. S. Ladd, P. C. Schuyler, Jr., H. W. Corbett, E. J. DeHart, A. M. Starr, H. B. Morse, R. B. Wilson, C. M. Carter, J. C. Ainsworth, L. C. Fuller, H. D. Green, R. J. Land, S. G. Reed, J. B. Harker, H. F. Block, B. Goldsmith, C. H. Lewis, George L. Curry, E. W. Tracy, L. Brooke, Jr., W. H. Reed, P. F. Bradford, R. R. Thomson, S. B. Parrish, A. M. Loryea, C. H. Larrabee, J. A. Chapman.

Mount Hood.—Bierstadt, nor his most illustrious contemporary in art, could never paint Mount Hood so beautifully as it appeared on Saturday, or even yesterday. An engraving or a painting in the highest style of the art, would sink into insignificance by the side of the grand scene portrayed by nature on Saturday. The Mount stood out boldly in front of a fleecy back-ground, formed by light clouds, and appeared to represent one eternal mass of snow, based upon the dim forests beneath it, while far above, the blue sky showed to great advantage, tinging the whole with a shade or coloring quite extraordinary, and certainly above what is human to paint, if not to give an accurate description of. The scene was unchanged for nearly twelve hours. Yesterday we noticed a large number of our citizens walking about the southern portion of the city, where these finest of views are obtained, and we presume many of them had never before seen such beautiful pictures.

A Pleasure Yacht.—The little steamer *Celilo*, which made a safe passage over the Cascades of the Columbia last season, and has since been employed about this city, in towing, etc., has lately been purchased by the O. S. N. Company, and we understand is to be handsomely fitted up and furnished to accommodate pleasure seekers during the summer months. She has powerful machinery, constructed at the Iron Works in this city, which will propel her faster than any steamer or vessel on the coast, with a new boiler which is to be put in, furnishing more steam. There is plenty of room on the *Celilo* for accommodating a party of thirty or forty persons, and she will be an elegant craft for moonlight excursions, just such a one as there was felt a need for last summer. The hull of the *Celilo* is built after the model of a clipper ship.

Special Tax Notice.—Collector Crawford gives notice in another column in relation to the increased tax, under the Internal Revenue law which took effect on the 1st of July last, and which is not such a material increase on licenses, as it is binding in observance. The matter interests all persons doing business under the head of hotels, wholesale dealers, retail liquor dealers, billiard tables, bowling alleys, etc. Persons visiting the Collector's and Assessor's offices will do well to purchase a "Tax Payer's Guide"—for sale by Mr. Frazar.

Willamette Theatre.—There was a very fair audience at this place of amusement on Saturday evening, to witness the performance of one of the finest bills of the season, consisting of the thrilling drama of "Dred," a tale of the great dismal swamp, from Mrs. Stowe's celebrated novel, and the sensation drama of "Colleen Bawn, or the Brides of Garryowen." The characters were well represented by the Company, Mr. and Mrs. Irwin taking part.

Hogs for Victoria.—The steamer *Senator* last week delivered a number of hogs of choice breed, in this city, for transportation to Victoria, for parties who are about entering upon the hog culture for Vancouver Island and British Columbia. We understand the species are selected from the fields of Mr. Cross, of Marion county, and comprise some of the best varieties on the coast.

Treasure and Letter Express.—Messenger West, of Wells, Fargo & Co's Express, arrived on Saturday evening by the steamer *Wilson G. Hunt*, bringing a heavy treasure and letter express from all points above the Dalles. We are indebted to him for late Walla Walla and Idaho papers, and the *Mountaineer*, containing the particulars of the execution of Dennis [illegible] on Friday last.

Accident.—The steamer *Cascade* returned from Astoria on Saturday evening with one of her engines disabled by bursting a cylinder head. It was an unforeseen casualty for which no one is at fault. The [illegible] will take her place in the route to Astoria, for the present trip.

Cows for Owyhee.—A large number of cows in fine condition, intended for dairy ranch on the Owyhee, arrived in this city from the Valley on Saturday last. They are to be sent forward immediately, in order to cross the Blue Mountains before the [illegible].

The Sermon delivered at the M. E. Church in this city yesterday forenoon by Rev. B. Rutledge, touched upon the depravity of youth and the school for vice. Could it have been listened to by the parents of some of the wayward youth of Portland, and its precepts practiced, it might be of service to the rising generation.

MOUNT HOOD.—Bierstadt, nor his most illustrious contemporary in art, could never paint Mount Hood so beautifully as it appeared on Saturday, or even yesterday. An engraving or a painting in the highest style of the art, would sink into insignificance by the side of the grand scene portrayed by nature on Saturday. The Mount stood out boldly in front of a fleecy back-ground, formed by light clouds, and appeared to represent one eternal mass of snow, based upon the dim forests beneath it, while far above, the blue sky showed to great advantage, tinging the whole with a shade or coloring quite extraordinary, and certainly above what is human to paint, if not to give an accurate description of. The scene was unchanged for nearly twelve hours. Yesterday we noticed a large number of our citizens walking about the southern portion of the city, where these finest of views are obtained, and we presume many of them had never before seen such beautiful pictures.

A PLEASURE YACHT.—The little steamer *Celilo*, which made a safe passage over the Cascades of the Columbia last season, and has since been employed about this city, in towing, etc., has lately been purchased by the O. S. N. Company, and we understand is to be handsomely fitted up and furnished to accommodate pleasure seekers during the summer months. She has powerful machinery, constructed at the Iron Works in this city, which will propel her faster than any steamer or vessel on the coast, with a new boiler which is to be put in, furnishing more steam. There is plenty of room on the *Celilo* for accommodating a party of thirty or forty persons, and she will be an elegant craft for moonlight excursions, just such a one as there was felt a need for last summer. The hull of the *Celilo* is built after the model of a clipper ship.

SPECIAL TAX NOTICE.—Collector Crawford gives notice in another column in relation to the increased tax, under the Internal Revenue law which took effect on the 1st of July last, and which is not such a material increase on licenses, as it is binding in observance. The matter interests all persons doing business under the head of hotels, wholesale dealers, retail liquor dealers, billiard tables, bowling alleys, etc. Persons visiting the Collector's and Assessor's offices will do well to purchase a "Tax Payer's Guide"—for sale by Mr. Frazar.

WILLAMETTE THEATER.—There was a very fair audience at this place of amusement on Saturday evening, to witness the performance of one of the finest bills of the season, consisting of the thrilling drama of "Dred," a tale of the great dismal swamp, from Mrs. Stowe's celebrated novel, and the sensation drama of "Colleen Bawn, or the Brides of Garryowen." The characters were well represented by the Company, Mr. and Mrs. Irwin taking [illegible].

HOGS FOR VICTORIA.—The steamer *Senator* last week delivered a number of hogs of choice breed, in this city, for transportation to Victoria, for parties who are about entering upon the hog culture for Vancouver Island and British Columbia. We understand the species are selected from the fields of Mr. Cross, of Marion county, and comprise some of the best varieties on the coast.

TREASURE AND EXPRESS.—Messenger West, of Wells, Fargo & Co.'s Express, arrived on Saturday evening by the steamer *Wilson G. Hunt*, bringing a heavy treasure and letter express from all points above the Dalles. We are indebted to him for late Walla Walla and Idaho papers, and the *Mountaineer*, containing the particulars of the execution of Deadmond, on Friday last.

ACCIDENT.—The steamer *Cascade* returned from Astoria on Saturday evening with one of her engines disabled by bursting a cylinder head. It was an unforeseen event, for which no one is at fault. The [illegible] will take her place in the line to Astoria, for the present trip.

COWS FOR OWYHEE.—A large number of cows, in fine condition, intended for dairy ranch in the Owyhee, arrived at this city from the Valley on Saturday last. They are to be sent forward immediately, in order to cross the Blue Mountains before the [illegible] roads set in.

THE SERMON delivered at the M. E. Church in this city yesterday afternoon by Rev. H. Rutledge, touched upon the depravity of youth and the school for vice. Could it have been listened to by the parents of some of the wayward youth of Portland, and its precepts practiced, it might be of service to the rising generation.

A DANGEROUS PLACE.—We would dislike very much to record a calamity resulting in the death or crippling of man or beast, at the excavation on Jefferson street between First and Third streets, but there is a strong probability that unless precautionary measures are adopted to guard against the danger, something unfortunate may occur. There has been too many limbs broken in this city not to have learned the authorities that it is wrong to leave such man traps open.

THE STEAMER OREGON.—The steamer *Oregon* returned on Saturday, having assisted the steamship *Oregon* in getting away from the point below St. Helens where she was unfortunately run aground in the storm and darkness of Wednesday night.

EXECUTION OF HENRY DEADMOND.—Henry Deadmond yesterday suffered the extreme penalty of the law for the murder of two men, named Meeks and Isbell, on the Eugene trail last summer. The circumstances attending the murder, his trial and conviction are yet fresh in the memory of the people. About 7 o'clock on yesterday morning, Father Vermass said mass in his cell, after which he ate a very hearty breakfast and did not appear at all affected at his approaching doom. Sheriff White having previously purchased him such clothing as he desired, he dressed himself in a black coat and trousers and white gloves. He remained unusually quiet during the forenoon and showed no signs of uneasiness. Rev. Father Vermass remained with him during the whole time and no doubt greatly assisted him by his advice and prayers.

The hour of 12 o'clock having arrived, a large crowd assembled around the jail notwithstanding the mud in the street was about ankle deep. Shortly after twelve, Lieutenants Halloran and Hall arrived from the garrison with about ninety soldiers, and after the necessary disposition of the troops was made, Deadmond, accompanied by the priest, Sheriff White and deputies marched from the jail and took seats in a wagon which was in waiting. The soldiers having formed a hollow square around the wagon the procession moved off to the place of execution, followed by about three or four hundred persons.

The place selected for the erection of the scaffold, on the road leading to the garrison, was a good one, and its selection was made in order to exclude the view of the execution from families who reside in the suburbs of the town.

The prisoner and guard having arrived at the place of execution, the wagon was halted and the guard was formed around the scaffold; the prisoner, accompanied by the priest, Sheriff and deputies, alighted from the wagon, passed through the files of soldiers, and the prisoner and clergyman knelt at the foot of the stairs leading to the gallows. Here the prisoner became nervous and for a time shed tears. After a short time spent in prayer, the prisoner ascended the scaffold with a firm step and seated himself beside the priest on a bench which was erected thereon. For a long time he conversed with the priest and it was generally supposed that he would make a confession of his guilt. He now asked for a glass of water, which was given him, and after drinking he advanced in the front of the platform and spoke as follows:

"Gentlemen, I am now on the scaffold, and am about to die. Let my fate be a warning to you all. I expect to go to heaven and will pray for you all. I forgive all and ask to be forgiven by all."

Having concluded his remarks he retired, with the priest and knelt on the platform, where he remained for some time. He now took leave of Father Vermass and the Reverend gentlemen retired from the scaffold. His hands and feet were then tied by the Sheriff, and in answer to a question from Sheriff White, if he was ready, he replied that he had faced death before in many shapes. He stood perfectly erect and immovable while the rope was being adjusted around his neck, and again asked permission of the Sheriff to speak to the assembled multitude, which, of course, was granted. He said, "I want to say good-bye to all. I hope to meet you all in Heaven. I expect to go to Heaven—if there is such a place in this world." He then asked the Sheriff how far he had to fall, and being answered, inquired, if his feet would touch the ground, which was answered in the negative. The cap was then drawn down over his face, and at 1:20 o'clock P. M., the trap fell, and Henry Deadmond was launched into eternity. He lived for eighteen minutes, during which time he apparently suffered much agony. After hanging thirty minutes the body was lowered into a coffin and all that remained of Henry Deadmond was conveyed to the Catholic burial ground and deposited in its last resting place.

Throughout the whole affair Deadmond retained his equilibrium and not even for a moment did he seem in the least manner agitated or nervous. Great credit is due Sheriff White for the manner in which the execution was conducted, also for the kind attention paid the prisoner during the confinement, in supplying all his necessary wants.

The execution was witnessed by about 1,000 persons, among whom were at least one hundred and fifty women, and children, who we think would have acted more becoming the sex if they had remained at home and attended to some domestic work. We do not think it is at all becoming in parents to bring their children—male and female—to witness such a scene as was enacted yesterday; we are of the opinion that it does not redound either to the benefit of the parents or children. Thus ended the last chapter in the life of Henry Deadmond.—*Mountaineer.*

Said a searcher of the papers the other day, "I am much troubled with a word I have just seen—impecuniosity—what does it mean?" On being told that it signifies a want of money, he exclaimed: "Is that it? I shall always be troubled with that word, I am afraid."

It is rumored that two fast sailing and heavily armed vessels have been fitted out at New York to sail as privateers under the Mexican flag and prey upon French commerce.

The Importance of a Correct Decision.—Thousands of persons suffering from the effects of a cold apparently trifling, delude themselves with the comforting idea, that it is of little consequence, and will soon wear off, when, in fact, it is the first note of a death-knell unless it be promptly decided to use NEWELL'S PULMONARY SYRUP, the most effective remedy known for the speedy cure of colds, [illegible] in the usual pulmonary affections of the chest, that precede Consumption.

Dr. Hostetter's Stomach Bitters should be in the possession of everybody in the mining regions. As a preventive of various dangerous diseases to which the gold seeker is liable, it has no superior. While it is quite palatable even as a beverage, it is speedy and powerful in its effects upon the system. In all cases of Diarrhea, Dysentery, and the periodical fever consequent upon exposure, the Bitters will be found invaluable as a corrective. No man should endanger the exposed [illegible] life of a miner without being provided with Hostetter's preventive of stomach disease, and should any of those who are now engaged in the occupation fail to have recourse to the Bitters. A Universal Medicine—Fully what we eat, by the air we breathe, or by the water we drink, we can be made sick; because these effects end by producing impurity of blood. ALLCOCK'S POROUS PLASTER—RELIEVING AND STRENGTHENING.—The history of the porous plaster would occupy too long a space to be spared within the limits of this advertisement. Suffice it to say that the most eminent chemists and physicians of the United States and Europe were consulted as to their composition. They are made porous, so that the exhalation of the perspiration can go on fully where the plaster is applied, without, as with other plasters, causing the accumulation of acrid fluid, which corrodes the skin, occasions many unpleasant sensations, not necessary for the cure or alleviation of the pains for which a plaster is usually applied. Indian rubber, [illegible] and other choice gums and essences of the vegetable kingdom, are the material ingredients of the celebrated plasters. While they are possessed of all the soothing and warming qualities of almost every other plaster of the United States Dispensatory, they are without many of their inconveniences. HOSTETTER'S

CELEBRATED

STOMACH BITTERS.

THE OPERATION OF THIS PALATABLE REMEDY upon the stomach, liver and other organs is singularly soothing and conservative. It regulates, corrects and purifies them. Dyspepsia in all its forms yields to its controlling and invigorating properties.

Invigorate the System.

Vigorous digestion and pure bile produce nutritious blood, and nutritious blood a healthy frame. Does the victim of a dyspeptic stomach and a disordered liver desire to know how the digestion may be improved, the bile and the fluids of the body purified?

Dr. Hostetter's Stomach Bitters

Will accomplish this desirable revolution in the system, regulating the secretions and excretions, giving tone to the stomach and bowels, strengthening the nerves, muscles and fibres and bringing the whole machinery of vitality into vigorous and healthful play.

Strengthen the System.

The best means of imparting vigor to the broken down frame and shattered constitution, which has yet been invented or discovered, is proffered to the feeble of both sexes and all ages in

Dr. Hostetter's Stomach Bitters.

Debility, from whatever cause arising, may be cured; strength, in whatever manner it may have been wasted, may be restored by the use of this powerful and healthy invigorant. For indigestion and all its special effects, bodily and mental, they are a positive specific.

A Word to the Aged!

In the decline of life, the loss of vital force consequent upon physical decay can only be safely supplied by some vivifying preparation which recruits the strength and spirits, without entailing the exhaustion which is always the final effect of ordinary stimulants. We tender to the aged

Dr. Hostetter's Stomach Bitters.

As an invigorant and restorative, gradually, more beneficial action and permanent in its effects. It tones the stomach, improves the appetite, and at the same time harm upon the spirits.

For Females.

Thousands of ladies testify to its efficacy for hysteria, fainting fits, [illegible] and other disorders peculiar to the [illegible] and other complaints to which [illegible] they are subject. It relieves and enlivens the depressed [illegible] as well as strengthens the body, and its use is never followed by any reaction.

WISTAR'S BALSAM

OF

WILD CHERRY!

HAS BEEN USED FOR NEARLY

HALF A CENTURY,

WITH THE MOST ASTONISHING SUCCESS IN CURING

Coughs, Colds, Hoarseness, Sore Throat, Influenza, Whooping Cough, Croup, Liver Complaint, Bronchitis, Difficulty of Breathing, Asthma, and every affection of the

THROAT, LUNGS, AND CHEST,

INCLUDING EVEN

CONSUMPTION.

There is scarcely one individual in the community who wholly escapes, during a season, from some one, however slightly developed, of the above symptoms—a neglect of which might lead to the last named, and most to be dreaded disease in the whole catalogue. The power of "medicinal gum" of the Wild Cherry Tree over this class of complaints is well known; so great is the good it has performed, and so great the popularity it has acquired.

In this preparation, besides the virtues of the Cherry, there are commingled with it other ingredients of like value, thus increasing its value ten fold, and forming a Remedy whose power to soothe, to heal, to relieve, and to cure disease, exists in no other medicine yet discovered.

The unparalleled success that has attended the application of this medicine in all cases of

PULMONARY COMPLAINTS

has induced many physicians of high standing to employ it in their practice, some of whom advise us of the fact under their own signatures. We have space only for the names of a few of these;—

S. H. Finley, M. D., San Francisco, Cal.
E. Boyden, M. D., Exeter, Me.
Alexander Hatch, M. D., China, Me.
R. Fellows, M. D., Hill, N. H.

W. B. Lynch, M. D., Auburn, N. Y.
Abraham Skillman, M. D., Boundbrook, N. J.
H. D. Martin, M. D., Mansfield, Pa.

The proprietors have letters from all classes of our fellow citizens, from the halls of Congress to the humblest cottage, and even from beyond the seas; for the fame and virtue of Wistar's Balsam have extended to the uttermost bounds of the earth, without any attempt on our part to introduce it beyond the limits of our own country.

TO CALIFORNIANS AND OREGONIANS.

After October 1, 1863, all genuine WISTAR'S BALSAM of WILD CHERRY for the Pacific Coast will be enclosed in a new wrapper which will bear the printed names of both Seth W. Fowle & Co., *Boston, Mass.,* and John D. Park, *Cincinnati, Ohio, as well as fac-simile of the signatures of* "I. Butts," "Sanford & Park," and "H. Wistar, M. D."

LE DOYEN'S

SARSAPARILLA, YELLOW DOCK

—AND—

IODINE ALTERATIVE

FOR THE

CONSTITUTION.

CLEANSE THE BLOOD.

WITH corrupt, disordered or vitiated Blood you must be sick all over. It may burst out in pimples or sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. Sarsaparilla purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and repelling disease. Hence it rapidly cures a variety of complaints, which are caused by impurities of the blood, such as Scrofula or King's Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, Syphilis or Venereal Diseases, Liver Complaints and Heart Diseases.

Blood and Liver.

This valuable Medicine is now available to the public for the cure of

SCROFULA, CONSUMPTION, RHEUMATISM, CANCER, HEART, LIVER AND KIDNEY DISEASES, NEURALGIA, NERVOUS AFFECTIONS, BRONCHITIS, DYSPEPSIA, &c.

AS A TONIC,

its operations are evinced by strengthening the digestive organs and increasing the appetite. In cases of Dyspepsia, Emaciation and Debility, an increased nutrition of the body is the result of the employment of Iodine. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Are you sick, feeble and complaining? Are you out of order, with your system deranged and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some fit of sickness is creeping over you, and should be averted by a timely use of the right remedy. Take Le Doyen's Sarsaparilla, and cleanse out the disordered system—purify the blood, and let the fluids move on unobstructed in health again.

AS A LITHONTRIPTIC,

it has no equal; being chemically combined with Iodine, it possesses in a high degree the power of dissolving Stone in the Bladder, and urators of the kidneys, preventing gravel formation and enlargement of the prostrate glands irritation of the neck of the bladder, dropsy, etc.

Fight Over a Dead Husband.—The New York correspondent relates the following, which we advise our readers to take with several grains of allowance:

"A scene such as is not often heard of, occurred in the Fleet street Church, Brooklyn, recently. A young Englishman, of superior address, good education and manly form, withal an engineer of some ability, obtained a position in the navy about the breaking out of the war. He soon sickened of the sea, however, and obtained a position on the sick list. He had previously married an estimable young lady in Williamsburg; the fruit of which union was one child. On his return from the sea, he avoided his wife, and, like a gay butterfly, flitted from flower to flower, boarding in various places, and winning the affections of as many young ladies. This kept him away from his ship, and eventually reduced his income to a very small amount. Next came the wine cup, and finally death by delirium tremens. The expenses of his funeral were defrayed by charitable men in the Navy Yard. The body lay exposed in the church named, and the eloquent minister commenced to perform the funeral service. Suddenly there was a buzz near the coffin. A lady in black, leading by the hand her only child, with quivering lips stooped to kiss the inanimate clay, and was heard to exclaim, 'my poor, erring husband.' A girl immediately behind her ordered the poor wife away, claiming him for her own. Another lady threw herself upon the body, kissing it wildly and loudly declaring that he alone was hers. Still others came. Loud and and angry became the tumult; fair hands fair faces scratched. The shroud was torn; hats of costly fabric hung in shreds bu luxurious ringlets. The whole assemblage, in fact participated in the melee, and the pastor was compelled to suspend the services and dismiss the public, when the unconscious cause of all the turmoil was quietly taken to his last resting place."

Tricks of Travelers.—On Conductor Kincarde's train, on the New York Central, the other night, a lady with a vast circumference of hoops, occupied a whole seat as the cars went out of this city. In taking up tickets the conductor evidently suspected something when he came to this lady, and politely requested her to rise, as he thought she was sitting on something which had been left on the seat. She demurred and he insisted. She said she wouldn't and he said she must, and finally she did, and not only that but she stepped out into the aisle, blushing tremendously, and insisting that she "didn't know it," when, lo and behold! a bouncing babe of the male persuasion, only sixteen years old, was discovered curled up on the floor! How the delightful creature got there was a mystery to her, of course—as much so as was the presence, to Joseph, of the chicken in Joseph's hat. The lady was about to anathematize the young gentleman in the most approved manner of injured virtue, but he took the words out of her mouth by pleading piteously: "Please now, Auntie, pay my fare." Auntie did.—*Schenectady (N. Y.) Star.*

Chalking the Score.—It is said that in the Norwegian mines a singular and striking custom is observed in paying the weekly wages of men there employed. They all present themselves on the Saturday evening to the inspector, who hears from each man, the number of hours he has worked on the successive days of the week past, compares the total given with his own notes on the subject, and having settled the account, calls the miner, bids him turn around, and writes with white chalk on his back the amount due him. Thus mysteriously numbered, the man has to go to the cashier, who also turns him around to look at the figures, and pays him without having a word to say. The method is an inexpensive one—two or three strokes of chalk settled the matter; it is prudent, for the miner has no chance to alter a figure in his own favor; and economical, for a brush removes all trace of the inscription, and the same black jacket is ready for the next Saturday.

A Hint to Ignorant Photographers.—The highly-polished surface of ornamental silver vessels is well known to occasion considerable trouble to the photographer, not only from the brilliant mass of light reflected, but from the number of irregular reflections from surrounding objects, the effect of which materially interferes with due rendering of the design. Some very unsatisfactory results of this kind being obtained by a photographer for a large firm at the West end, the manager of the artistic department, an Irish gentleman of great resource, exclaimed to the photographer, "why don't you put a piece of ice in the jug?" The question was solved in a moment. A piece of ice in the silver vessel would rapidly cool it, and cause it to condense vapors on its surface from the surrounding atmosphere. This would just sufficiently dim the excessive luster to render a good photographic representation possible.—*Photographic News*

Idolators by Mistake.—The late Lady Bard, (says a writer in "Notes and Queries," of Fentower, told me that every year at "Beltona" (on the first of May,) a number of men and women assembled at an ancient Druidical circle of stones on her property, near Crieff. They light a fire in the center; each person puts a bit of oat cake into a shepherd's bonnet. One piece has been previously blackened, and whoever gets that piece has to jump through the fire in the centre of the circle, and to pay a forfeit. This is, in fact, a part of the ancient worship of Baal, and the person on whom the lot fell was formerly burnt as a sacrifice; now the passing through the fire represents that, and the payment of the forfeit redeems the victim. It is curious that staunch Presbyterians, as the people of that Perthshire now are, should unwittingly keep up the observance of a great heathen festival.

Consequences of the Earth being Stopped in its Orbit.—In a curious article upon the "Causes of Hurricanes and Meteors," the *Scientific American* thus concludes:

"If the earth should be stopped in its orbit, it would begin to fall straight toward the sun. As it approaches more nearly to that great source of heat it would reach a point where the temperature is as high as two hundred and twelve degrees, and then all the waters of the ocean would be evaporated. As it drew still nearer, the rocks would be melted, and afterwards they also would be evaporated. Before it reached the sun this solid earth would be converted into a vast volume of red hot gas, which, when it fell into the fiery atmosphere of the sun, would merely produce blasts of wind from the point where it struck outward in all directions."

An old miser, who was notoriously parsimonious, being ill, was obliged reluctantly to consult a doctor. "What shall I do with my head?" said the old man; "tis so dizzy I seem to see double." The doctor wrote a prescription and then retired: "When you see double you will find relief if you count your money."

An old fellow while trying to sell a rat-terrier to a citizen a day or two ago, got off the following graphic sentence: "I wud du yer sole gud to see him with his har all erekt, his tale straght out stiff, every muscle alive, and the entire dorg only three feet from a rat hole!"

A little boy who put counterfeit money in the contribution box, replied to his Sunday School teacher that he "didn't spose the little heathens would know the difference, and thought it would be just as good for them." Thoughtful boy.

How Men Should Treat Women.—A Persian poet gives the following instruction upon this important subject: "When thou art married, seek to please thy wife; but listen not to all she says. From man's right side a rib was taken to form the woman, and never was there seen a rib quite straight. And wouldst thou straighten it? It breaks, but bends not. Since then, 'tis plain that crooked is woman's temper, forgive her faults, and blame her not; nor let her anger thee, nor coercion use, as all is vain to straighten what is curved."

SINGER SEWING MACHINES!

MANUFACTORY:

182, 184, 186, 188, 190 and 194 Mott street, New York.

Motto—"The Singer Sewing Machines are the only Machines that can Sew all kinds of Cloth, and with all kinds of Thread."

Singer's Letter A Family Machine is the best and cheapest Machine in the world for Family Sewing. There is no doubting to the value of our Machines for manufacturing purposes, but it is only of late that the public began to learn that the essential elements of a Machine best adapted to the heaviest work, would also be the elements to be embodied in a Family Machine.

We would ask for our **Letter A** Machines the attention of Vest Makers and Dress Makers, and all those who want Machines for light Manufacturing Purposes. They embody the principles of the Manufacturing Machines, making, like them, the interlocked stitch, and are destined to be as celebrated for FAMILY SEWING and light Manufacturing purposes, as our Manufacturing Machines are for manufacturing purposes in general.

FAMILY SEWING MACHINES are valuable in proportion to the number of things they can do well. See what ours can do before making a purchase.

☞ All persons requiring information about Sewing Machines, their sizes, prices, working capacities, and the best method of purchasing, can obtain it by sending for a copy of the SINGER MANUFACTURING COMPANY'S ILLUSTRATED PAMPHLET which is entirely devoted to the subject. IT WILL BE SENT GRATIS.

Great Injustice.

THE ATTENTION OF THE BUSINESS COMMUNITY is again called to the

OLD GREENBACK CASE!

HAVING BEEN COMPELLED TO ACCEPT OF LEGAL TENDER NOTES AT PAR since December 17th, 1862, for the rent of my Handsome Brick Store, corner of Morrison and Front streets, I feel compelled to announce for the benefit of the public at large, that

Jacob Mayer

leased the building of me on the 17th day of February, 1862, for a term of years, at which time there was no such currency in vogue, and it was understood the terms were CASH. Since the date above stated I have received the depreciated currency regularly, under protest for the rent of the

CITY OF PARIS STORE,

Making less than two-fifths of the real amount said Mayer was to pay. He had secured the building at very advantageous rates, and even were he now to comply with his contract, and pay in COIN, would be getting the best bargain in the city. I make this statement to show the public what kind of a man he must be to take such mean advantage of the times to convert a few dollars to himself by LEGAL SWINDLING. The public can readily see what it costs to have such tenants. G. W. VAUGHN.

LILLIE'S LOCK OPENED

In One Minute.

New York, September 2, 1861.

F. Tillman, Esq., 218 Battery Street, San Francisco.
Between Commercial and Clay, San Francisco.

DEAR SIR: WE NOTICE AN ADvertisement in your daily papers respecting the "security" of the "Lillie" lock. We are aware that you & I understand this lock, and, of course, will not allow yourself to be annoyed by such representations. We have just sent for one of our men at the factory, and he, in our presence, opened one of Lillie's best safe locks, after it had been locked and the combination turned on.

By One Blow of the Hammer

Against the key-hole on the outside, and thereby breaking the cast-iron bolt inside.

The whole time occupied in opening the lock was about ONE MINUTE. We send you the lock that your friends may not be deceived by false representations, etc.

Respectfully, etc.

Any parties desirous of seeing the above mentioned lock, its tumblers and easy mode of opening the same, can call at

318 Battery Street, San Francisco.

Georgetown, March 26, 1861.

Messrs. Tilton & McFarland,
Safe Manufacturers, Boston, Mass.

Gentlemen: From representations made by Mr. Lillie, I was induced to purchase of him one of his

So Called "Fire Proof Safes."

On the 18th of February last a fire destroyed our block which destroyed a number of buildings, and our own with the rest. We trusted our books, papers and all in the safe. After the fire the scruffy safe was taken from the ruins, and on opening it we found that

Everything had been Destroyed.

We send you the safe, with what is left of the papers, and you will see that not one of them is legible or strong enough to sustain its own weight. Having the curiosity to know how our neighbors fared in this fire, we noticed McKinnon & Hardy just opening their safe (TILTON & McFARLAND'S make) and its contents were found to be

In Perfect Condition.

This led us to further investigation, and we found to our astonishment that from the large amount of combustible material in Messrs. McK. & H.'s cellar—such as lard, pork, etc., their safe was subjected to a much greater heat than that of our own, we being in the clothing business and had but little in the cellar. There was another of Lillie's safes here subjected to the same fire faring, however, no better than ours.

Very respectfully,
Your obedient servants,

(Signed:) GEO. H. CHESBORO & CO.

From the army hospital—the bloody battle-field—the mansion of the rich and humble abode of the poor—from the office and the sacred desk—from the mountain tops, distant valleys, and far-off islands of the ocean—from every nook and corner of the civilized world—is pouring in the evidence of the astounding effects of DRAKE'S PLANTATION BITTERS. Thousands and thousands of letters like the following may be seen at our office:

Rhinebeck, Wis., Sept. 16, 1863.

* * * I have been in the army hospitals for fourteen months—speechless and nearly dead. At Alton, Ill., they gave me a bottle of Plantation Bitters. * * * Three bottles restored my speech and cured me. * * *

C. A. FLAUTE.

South Warsaw, O., July 28, 1863.

* * * One young man, who had been sick and not out of the house for two years with Scrofula and Erysipelas, after paying the doctors over $150 without benefit, has been cured by five bottles of your Bitters.

EDWARD WOUNALL.

The following is from the manager of the Union Home School for the Children of Volunteers:

"Havemeyer Mansion," Fifty-Seventh St.,
New York, August 1, 1863.

"Dr. Drake: Your wonderful Plantation Bitters have been given to some of our little children suffering from weakness and weak lungs, with most happy effect. One little girl, in particular, with pains in her head, loss of appetite, and daily wasting consumption, on whom all medical skill had been exhausted, has been entirely restored. We commenced with but a teaspoonful of Bitters a day. Her appetite and strength rapidly increased, and she is now well. * * * Respectfully,

Mrs. O. M. DEVOE."

* * * I owe much to you, for I verily believe the Plantation Bitters have saved my life.

Rev. W. H. WAGGONER, Madrid, N. Y."

* * * Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefitted by their use. Thy friend,

ASA CURRIN, Philadelphia, Pa."

* * * I have been a great sufferer from dyspepsia, and had to abandon preaching. * * * The Plantation Bitters have cured me.

Rev. J. S. CATHORN, Rochester, N. Y."

* * * Send us twenty-four dozen more of your Plantation Bitters, the popularity of which is daily increasing with the guests of our house.

SYKES, CHADWICK & CO.,
Proprietors Willard's Hotel, Washington, D. C."

* * * I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.

G. W. ANDREWS,
Superintendent Soldiers Home, Cincinnati, O."

* * * The Plantation Bitters have cured me of liver complaint, of which I was laid up prostrate and had to abandon my business.

H. B. KINGSLEY, Cleveland, O."

* * * The Plantation Bitters have cured me of a derangement of the kidneys and urinary organs that has distressed me for years. It acts like a charm.

C. C. MOORE, 254 Broadway, N. Y."

etc. etc. etc. etc. etc.

The Plantation Bitters make the weak strong, the languid brilliant, and are exhausted nature's great restorer. They are composed of the celebrated Calisaya Bark, Wintergreen, Sassafras, Roots, Herbs, &c., all preserved in perfectly pure St. Croix Rum.

S. T.—1860.—X.

Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, &c., deserve to suffer if they will not try them.

They are recommended by the highest medical authorities, and are warranted to produce an *immediate* beneficial effect. They are exceedingly agreeable, perfectly pure and harmless.

Notice.—Any person pretending to sell Plantation Bitters in bulk or by the gallon, is a swindler and impostor. It is put up only in our patent log cabin bottle. Beware of bottles refilled with imitation deleterious stuff, for which several persons are already in prison. See that every bottle has our private United States Stamp over the cork unmutilated, and signature on steel plate side label.

Sold by respectable dealers throughout the habitable globe.

NOTICE,

TO CONTRACTORS AND BUILDERS:

SEALED PROPOSALS will be received at County Clerk's office, until 10 o'clock, A. M., of Wednesday, the 8th day of March next, for the building of a Court House, on Block 58, in the City of Portland, for use of Multnomah county. A plan and specifications thereof may be seen at the office of the County Clerk of said county. Separate bids are solicited, as follows:

1st.—For the erection and completion of the entire Building, in accordance with said plans and specifications, estimating cost thereof with and without heating apparatus.

2d.—For the erection and completion of a portion only of said building, viz: Erecting, enclosing, and outside finishing of the building, finishing the basement, jail, offices, and rooms, on the south side of the main entrance hall on the first floor, and for running all the stairs and laying all the floors in accordance with said plan and specifications, estimating cost thereof with and without heating apparatus.

The contract will be awarded to the lowest responsible bidder. Each bidder is required to submit with proposal, the names of two or more responsible sureties. The Commissioners reserve the privilege of rejecting any and all bids. Payment of contract price to be made in coin.

Published by order of County Commissioners,

H. C. COULSON, Clerk,
Multnomah County.

PERUVIAN SYRUP,

OR PROTECTED

Solution of Protoxide of Iron,

Has been used with Great Success in Curing

DYSPEPSIA,

Affections of the Liver, Dropsy, Neuralgia, Bronchitis and Consumptive Tendencies, Disordered State of the Blood, Female Complaints, Chronic Diarrhœa, Boils, Scurvy, the Prostrating effects of Lead or Mercury,

GENERAL DEBILITY,

and all Diseases which require a

Tonic and Alterative Medicine.

THE PROOFS OF ITS EFFICACY ARE SO NUMERous, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the proffered aid.

The class of diseases for which the Syrup provides a cure, is precisely that which has so often baffled the highest order of medical skill. The facts are tangible, the witnesses accessible, and the safety and efficacy of the Syrup incontrovertible.

From well-known Citizens of Boston.

The undersigned having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

It is well known that the Medicinal effect of Protoxide of Iron is lost by even a very brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup, this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto carbonates, citrates and tartrates of the Materia Medica. A. A. HAYES, M. D.

IODINE WATER.

IODINE WATER IS THE MOST IMPORTANT DIScovery of modern chemistry, and it is impossible to over-estimate its influence as a remedial agent. Iodine has been considered the most useful article in Materia Medica, and many of the most scientific and practical chemists and physicians have investigated its effects upon the human system. It is to act upon the

HEART,
LIVER, KIDNEYS,
DIGESTIVE ORGANS and GLANDULAR SYSTEM,

and to have great control over

SCROFULOUS AFFECTIONS.

Notwithstanding the zeal and ability which have been devoted to its investigation, it remained almost useless, until Dr. Henry Anders, a physician and chemist of New York, after years of patient labor and experiment, discovered a chemical process which enabled him to dissolve

PURE IODINE IN PURE WATER.

without a solvent. This, considered impossible by the scientific world, is attested by certificates of analysis from Dr. J. R. Chilton of this city, and Prof. Booth, U. S. Mint, Philadelphia. The importance of this discovery was so highly appreciated by the Faculty that it was published in the Medical Journals and its use recommended to practitioners (see "American Medical Monthly," July 6, 1856, page 70.)

This valuable medicine is now available to the public for the cure of Scrofula in all its manifold forms, Consumption, Cancer, Heart, Liver and Kidney Diseases, Rheumatism, Neuralgia, Nervous Affections, Dyspepsia, Bronchitis, etc.

AS A TONIC

Its operation is evinced by strengthening the digestive organs and increased nutrition of the body, as the result of the employment of Iodine. The patient recovers flesh, strength and color; hitherto pale, relaxed and feeble, he becomes full, strong and florid.

Full directions accompany each bottle.

Sold by all Druggists. Price, $1 per bottle. Prepared by Dr. H. Anders & Co., Physicians and Chemists, New York.

ALLEN'S

LUNG BALSAM!

The Remedy for Curing

CONSUMPTION, COUGHS, COLDS,

Asthma, Croup,

Diseases of the Throat, Bronchitis, Pains and Oppression of the Chest and Lungs; Difficult Breathing and all the Diseases of the Pulmonary Organs.

ITS ACTION IS EXPECTORANT, ALTERATIVE, SUDORIFIC, SEDATIVE, DIAPHORETIC AND DIURETIC, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, and causes the lungs to throw off the phlegm or mucus; CHANGES THE SECRETIONS AND PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action, and imparts strength to the whole system. Such is the immediate and satisfactory effect, that it is WARRANTED TO BREAK UP THE MOST DISTRESSING COUGH IN A FEW HOURS TIME, if not of too long standing. IT IS WARRANTED to give entire satisfaction even in the MOST CONFIRMED CASES OF CONSUMPTION. IT IS WARRANTED NOT to produce costiveness (which is the case with most remedies) or affect the head, as it contains no Opium in any form. IT IS WARRANTED TO BE PERFECTLY HARMLESS to the most delicate child, although it is an active and powerful remedy for restoring the system. THERE IS NO REAL NECESSITY FOR SO MANY DEATHS BY CONSUMPTION, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

Sold by all Druggists. Price $1 per bottle.

"CONSTITUTION WATER,"

THE ONLY REMEDY FOR DISEASES OF THE

BLADDER, KIDNEYS,

Gravel, Dropsical Swellings,

GENITAL DEBILITY, ETC.

THE ASTONISHING SUCCESS WHICH HAS ATtended this invaluable medicine renders it the most valuable one ever discovered. No language can convey an adequate idea of the immediate and almost miraculous change which it occasions in the debilitated and shattered system. In fact, it stands unrivalled as a remedy for the permanent cure of the maladies above-mentioned, and also—

DIABETES, IMPOTENCY,
LOSS OF MUSCULAR ENERGY,
PHYSICAL PROSTRATION,
INDIGESTION,
SEMINAL WEAKNESS,
GLEET, FLUOR ALBUS,

And in every disease in any way connected with the disorder or decay of the Procreative Functions. Persons about to marry, if conscious of any weakness, should take the

CONSTITUTION WATER,

Whether broken down by excess, weak by nature, or impaired by sickness, the unstrung and relaxed organization is at once rebraced, revivified and built up. Well may this celebrated medicine be called the

MEDICAL WONDER.

The stooping, trembling victim of depression and debility becomes a new man; he stands erect, he moves with a firm step; his mind, which was previously sunk in gloom of an almost idiotic apathy, becomes bright and active; and he goes forth regenerated, conscious of new vigor.—The medicine reaches the CONSTITUTION itself, and restores it to its normal condition.

IRRITATION OF THE NECK OF THE BLADDER,
INFLAMMATION OF THE KIDNEYS, AND
CATARRH OF THE BLADDER,
STRANGUARY AND BURNING OR PAINFUL
URINATING,
CALCULUS, GRAVEL,
BRICK DUST DEPOSIT AND MUCOUS
OR MILKY DISCHARGES AFTER URINATING.

For these diseases it is truly a sovereign remedy, and too much praise cannot be said in its praise. A single dose has been known to relieve the most urgent symptoms. TRY IT in these cases, and you will ever give praise to

CONSTITUTION WATER.

Males or Females,

Are you troubled with that distressing pain in the small of the back, and through your hips? CONSTITUTION WATER will relieve you like magic.

LEFFEL'S AMERICAN

DOUBLE TURBINE WATER WHEEL

LEFFEL'S AMERICAN TURBINE has many advantages over all other Wheels, both Turbines and Overshot.

It has competed successfully with every variety of Wheel, and has always proved itself victorious.

This Wheel has been in use nearly Three Years in the States and HAS NEVER MADE A FAILURE.

It is CHEAPER than an Overshot, MORE DURABLE, and will YIELD A HIGHER PER CENT. OF POWER from the same quantity of water. We have introduced five on this coast. They are not all in operation yet, but will be in a few days. The following testimonial is from an old and experienced Mill-wright, well known in this State:

Westport, Clatsop Co., Oregon,
Nov. 19th, 1864.

Messrs. Leffel & Myers—*Dear Sirs:* We have had one of water now, and your DOUBLE TURBINE is in successful operation. We are satisfied that your Wheel is equal, if not superior to the Overshot. With the same water that the Overshot uses, **we can do more work with the Turbine than with the Overshot.** I have tried many Wheels which were claimed to be superior to an Overshot but yours is the first I have found. Hence we do not hesitate to recommend the **American Double Turbine** as the most efficient economizer of water in our knowledge.

JOHN WEST & CO.

We desire all who want Wheels to visit the following named places and have ocular demonstration of the above facts:

John West & Co., West Port, Clatsop County, Oregon;
